**CRITICAL CARE  
TRANSPORT**

*Premier customization.*

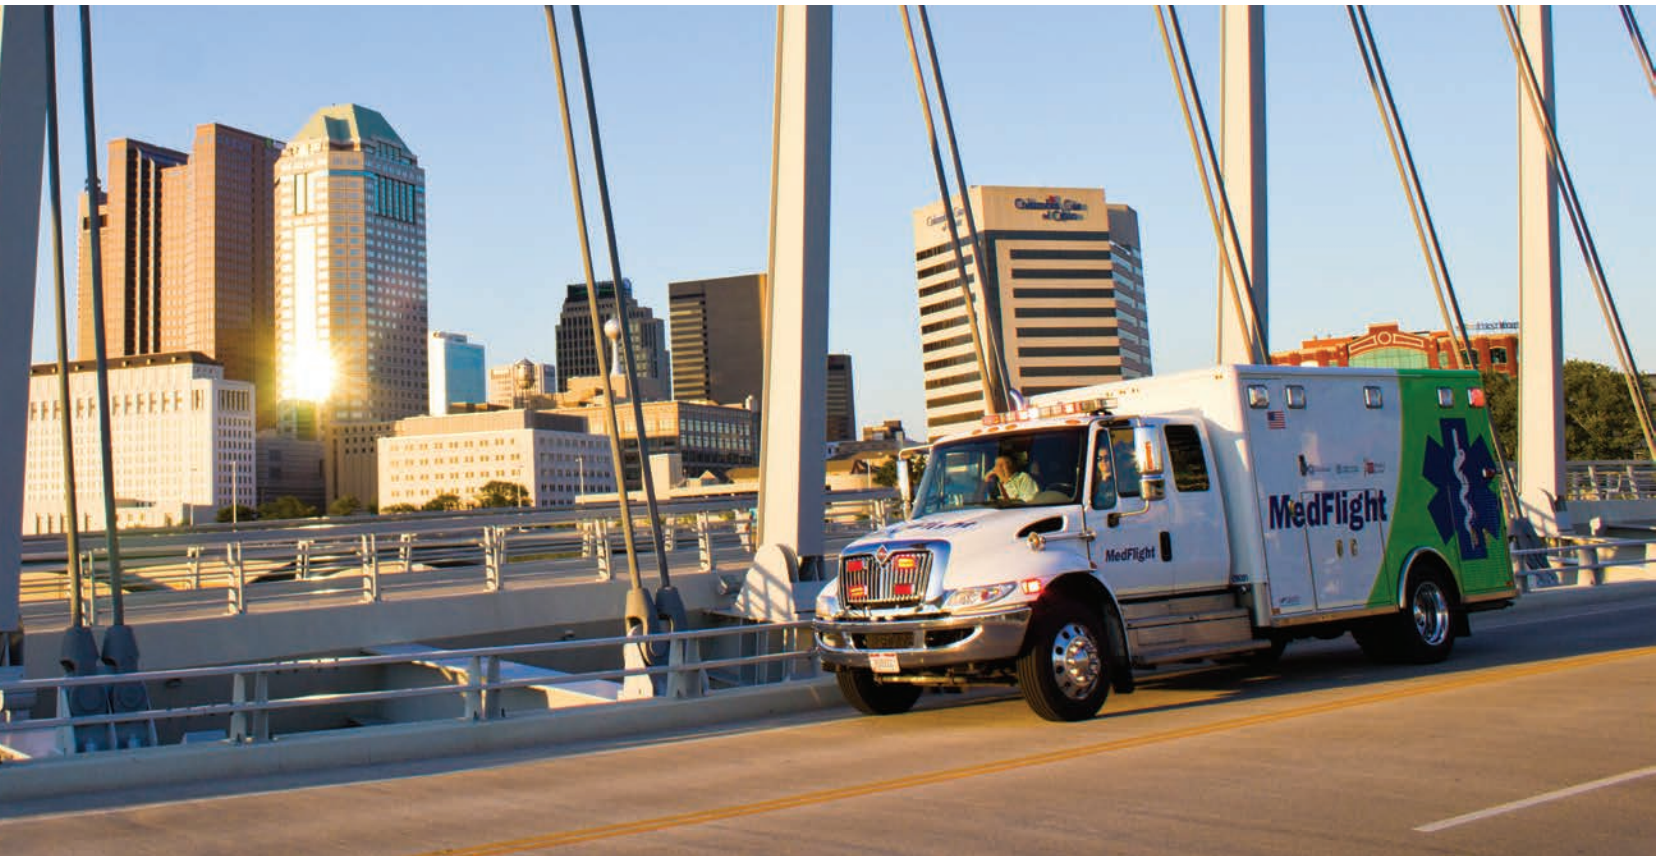

*Life-saving dependability  
and safety.*

# CUSTOM ENGINEERED TO FIT YOUR NEEDS

When it comes to specialized transport vehicles, every situation is different – a standard design won't fit your needs. Based on more than 45 years of custom engineering, Horton provides the premier design service for those looking to purchase a new Critical Care Ambulance.

# DEPENDABILITY – NO COMPROMISE FOR SPECIALIZED TRANSPORT CARE

Providing specialized transport for critical care patients requires an ambulance that you can depend on. Reliability isn't an option, but a necessity. Expert engineering and quality construction provide the daily function that you can rely on.

# INTERIORS THAT OPTIMIZE PERFORMANCE AND SAFETY, INSPIRE CONFIDENCE

A Horton-designed layout will provide optimal functionality and accessibility, based on the flow of your crew. Known for our superior interiors, we create an environment that is safe, non-threatening, professional and clean. Providing the entire package will inspire confidence in the ability of your ambulance and your team.

From swift fleets to completely-customized neonatal units, our experience spans several decades with notable clients including:
