

# TYPE III

Practical size and storage.  
Optimal maneuverability.

403 503E  
453 533  
553

With the comfort of a car-like ride and a tight turning radius, the Type III remains a popular choice in today's market. These van cutaway chassis offer a variety of headroom options and the ability to modify to suit your needs. Choice is not limited to just the exterior, as each model offers numerous compartment and cabinet configurations – from standard designs to fully-customized creations.

FORD

GMC/CHEVY

Horton Type III ambulances come standard with all the features you know and trust to be one of the safest and highest-quality ambulances on the market.
