"FESCO helped make our vision for our police and security vehicles into a reality. The experts who worked with us to design and wrap our cars were courteous and professional. We got lots of great feedback on the 'look' of our vehicles, and we want to thank FESCO for helping our department shine!"

-Thomas Leone  
University of Maryland,  
Baltimore Police Department

## EMERGENCY SALES

GRAPHICS DEPARTMENT

- Advanced Custom Graphics and Installation
- Climate-Controlled Installation Bays
- Custom Design Service

 Horton

 **rosenbauer**  
Firefighting Technology

 **MEDIX**  
SPECIALTY VEHICLES

FESCO has been strongly committed to customer service since 1953. The Graphics Department opened in 2003 with a single employee and has grown to a full-time staff of designers and installers.

FESCO has made a significant investment in graphics equipment to provide the highest quality. FESCO can provide vehicle wraps for ambulances, chief's vehicles, utility vehicles, commercial vehicle fleets and passenger cars. We will match a historical design or create a new look with your ideas. The digital color matching system ensures the color is correct no matter how unique it is.

## GRAPHICS HIGHLIGHTS

- Roland EcoSolvent and Gerber EdgeFX Technology
- Secured, Climate Controlled Graphics Bays
- Professional Design & Installation Specialists

## CUSTOM DESIGN

Our graphics team will produce a custom layout and utilize any combination of custom lettering, striping, and full or partial vinyl wraps to transform your vehicle to look exactly how you envision.

In addition to emergency vehicles, FESCO can also provide custom graphics to the commercial industry.

## ENGRAVING CAPABILITIES

FESCO's Vision Engraving System creates custom signs and placards for fire apparatus, emergency and commercial vehicles. We use advanced software and various materials & color combinations to design tags, labels, parts, key chains, etc.

## GRAPHICS CAPABILITIES
